Cal OES INLAND REGION

- See Fire Activity Slides.

Cal OES SOUTHERN REGION

Virulent Newcastle Disease (vND) in Chickens, Los Angeles and San Bernardino Counties

The California Department of Food and Agriculture (CDFA) has detected virulent Newcastle Disease (vND) in chickens in Los Angeles and San Bernardino Counties.

Per the Cal OES Southern Region AREP on 06/14/18 at 0846 hours:

- CDFA and the U.S. Department of Agriculture (USDA) have scaled up their response to this incident, as more cases have been detected.
- CDFA confirmed there are no commercial premises currently involved and there is no public health risk due to this virus.
- Incident Management Teams (IMTs) transitioned on 06/16/18. The IMT Red Team started on 06/17/18.

Activations

- San Bernardino Operational Area (OA) EOC is activated to Level 3 (lowest level) and will continue to monitor the incident.

Deployments

- One (1) Cal OES Southern Region Senior ESC deployed to ICP as an AREP. Operational period of 0700-1900 hours.

FIRE ACTIVITY

Cal OES Fire Preparedness Levels		
National	Northern California	Southern California
Preparedness Level 2	Preparedness Level 1	Preparedness Level 2
	Multi-Agency Coordination System MACS Mode: 1	Multi-Agency Coordination System MACS Mode: 1

Please note: The National and Regional Preparedness Levels are maintained by the National Multi-Agency Coordination (MAC) Group and are separate from Cal OES activation levels.

COASTAL REGION

Beaver, Vegetation Fire, San Benito County (Final)

Location: Coalinga Hwy x Airline Hwy, East of King City

Jurisdiction: State DPA, SRA

Start Date/Time: 06/12/18 at 1504 hours

Per Cal OES Duty Officers and ICS-209 as of [06/18/18 at 0802 hours](#):

- 215 acres grass, [95% contained](#)
- Expected Containment: 06/18/18

INLAND REGION

Planada, Vegetation Fire, Merced County (Final)

Location: Doug Road and Bonner Road, Community of Planada

Jurisdiction: State DPA, SRA, Mariposa-Madera-Merced County

Start Date/Time: 06/15/18 at 1030 hours

Per Cal OES Duty Officers and ICS-209 as of [06/18/18 at 0802 hours](#):

- 4,564 acres grass, 90% contained
- Expected Containment: 06/19/18
- Firefighters continue line improvement, mop up and patrol

FIRE ACTIVITY

INLAND REGION (Continued)

Boyer, Vegetation Fire, Mariposa County

Location: Boyer Road and Fox Hollow Ln, Community of Bootjack

Jurisdiction: State DPA, SRA, Mariposa-Madera-Merced County

Per Cal OES Duty Officers as of [06/18/18 at 0802 hours](#):

- 53 acres grass and oak woodland, [85% contained](#)
- Continue to improve, reinforce and secure control lines

WEATHER SYNOPSIS BY REGION

NORTHERN CALIFORNIA

Low pressure to our east will produce isolated showers and thunderstorms in our northern and eastern areas today. Temperatures will be near normal and humidity in the driest inland valleys will drop to 17-25% today. Winds will generally be out of the SW-NW, with afternoon gusts to 25 mph. Outflow gusts from any thunderstorms could reach 35 mph.

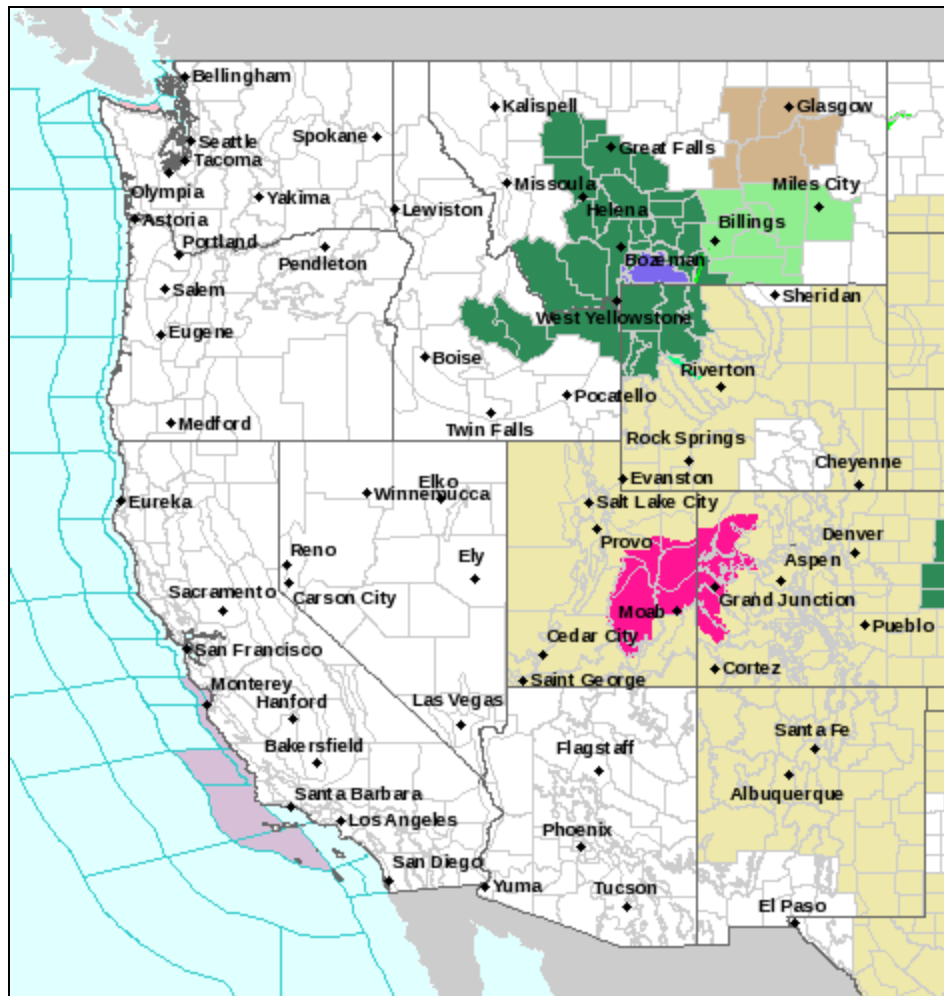

A high pressure ridge will move overhead Tuesday and Wednesday and boost temperatures up to 10 degrees above normal with light winds and low relative humidity (RH). However, a weak disturbance moving into OR could produce showers and thunderstorms in Del Norte and western Siskiyou Counties Wednesday evening. A low pressure trough will move over the region Thursday and bring an increase in S-W winds, but with higher RH and temperatures closer to normal. Friday will be warmer and drier as we transition back to high pressure, and next weekend will be hot and dry as the high pressure passes over the region.

SOUTHERN CALIFORNIA

Temperatures will warm and humidity will lower quite a bit as the area of low pressure that was over Northern Nevada yesterday moves into Idaho today. However, temperatures will be 5 to 10 degrees below normal, with mid 60s to mid 70s across the mountains and upper 70s and 80s in the valleys. Minimum humidity will be mainly between 20% and 40% today. Substantial warming and drying will continue away from the coastal areas through Wednesday as a ridge of high pressure currently off the Northern Baja Coast moves overhead. Temperatures will be around 10 degrees above normal and minimum humidity will drop into the single digits and teens away from the coastal areas by Wednesday. There will be little change in the hot and dry conditions Thursday and Friday as high pressure remains overhead. High pressure may weaken some this weekend bringing a little cooling to the area.

Cal OES LAW ENFORCEMENT MISSIONS

Cal OES Law Missions

- **2018-LAW-47399, 06/17/18, 0747 hours:** The International Emergency Response Coordination Center (IERCC) received a PLB SPOT activation at 38° 46' 6.2" N, 119° 43' 20.3" W. These coordinates return to the Barney Wiley Trail and Cottonwood Canyon in Alpine County. Alpine County SAR was notified of the incident and sent in ground crews to the location. The Emergency contact for the device said the subject was going to raft down the river. IERCC updated the location of the device three times in the first 3 hours and it appeared the device was moving down the river. Alpine County located the subject's vehicle near the Stateline at a popular pickup point for rafters and left a note to contact the sheriff's office upon his return. The Sheriff's Office off road team continued to search the river with negative results. At 1600 hours, the rafter called the Sheriff's Office to advise it was an accidental activation. **Mission Closed.**
- **2018-LAW-47389, 06/16/18, 1820 hours:** The USCG received a call of a boater in distress at 38° 49' 092"N -121° 05' 752" W. These coordinates return to the north shore of Folsom Lake on the Placer County side. LDO called Placer County Sheriff's Office and determined California State Parks patrol the lake. State Parks advised they had already spoken to the boater who had lost power and was drifting into a rocky area. State Parks advised the boater was able to self-rescue with no further assistance needed. **Mission Closed.**

Cal OES MISSION TASKING

Cal OES Missions

- **2018-IREOC-45244:** Caltrans to remove dead and dying trees along highways in Kern, Tulare, Fresno, Madera, Mariposa, Tuolumne, Calaveras, Butte, Plumas, Sierra, Shasta, and Lassen counties. (On Scene – Long-term assignment)
- **2017-SOC-44098:** CalRecycle Debris Management Team in Ventura County (Coordinating)
- **2017-Inland-42559:** Weather station installed to gather real time rainfall data by Air Resources Control Board (On Scene)
- **2018-Fire-47403:** [California National Guard 95th Civil Support Team \(2 team member\)](#) assisting [Stockton Fire Department](#) with hazmat material identification. [Mormon Slough, Stockton, San Joaquin County](#) (Coordinating)

Cal OES

GOVERNOR'S OFFICE
OF EMERGENCY SERVICES

Mission:

We protect lives and property, build capabilities, and support our communities for a resilient California.

We achieve our mission by serving the public through effective collaboration in preparing for, protecting against, responding to, recovering from, and mitigating the impacts of all hazards and threats.
